LIQUID INSECT REPELLENT FOR ENVIRONMENTAL TREATMENTS OF CIVIL AND ZOOTECHNICAL AREAS - PROFESSIONAL USE

Composition

100 grammes of product contain

Geraniol	g 2 (20 g/l)
Coformulants	q.s. up to g 100

Features

The product, water-based liquid formulation, contains Geraniol, a plant-based active substance, and performs a repellent activity against domestic insects such as mosquitoes, tiger mosquitoes, flies and red mites. Our labs developed a specific formulation acting up to 24 hours and leaving a nice fragrance in the treated environment.
